The Agency may also provide low interest loans for the portion of the construction work necessary to meet the historic compatibility requirements.

3. Redevelopment of Unused and Underused Land and Buildings and other Civic Improvements

The Agency may provide grants and low interest loans for business, civic, residential, cultural, and tourist-related property to be developed, redeveloped, improved, rehabilitated, and/or conserved. The 3rd Place street improvements include street, utilities, curbs, sidewalks, lighting, landscaping, and associated improvements.

602. ACQUISITION OF REAL PROPERTY

The Plan authorizes the acquisition and disposition of property as described in this section. Property includes any and all interests in property, including fee simple ownership, lease, easements, licenses or other rights to use. Eminent domain would only be used if necessary for the acquisition of land for public improvements and after the Agency has taken all steps required by law to attempt to acquire the land by voluntary agreement with the property owner.

A. Property Acquisition for Public Improvements

The Agency may acquire any property within the Area necessary for the public improvement projects undertaken pursuant to the Plan by all legal means. The Agency action approving an acquisition will specify the need for the acquisition in relation to the public improvement undertaken.

B. Property Acquisition - From Willing Sellers

The Plan authorizes the Agency acquisition of any interest in property within the Area that the Agency finds is necessary to support private redevelopment pursuant to the Plan, but, except as noted below, only in those cases where the property owner wishes to convey such interest to the Agency. The Agency action approving an acquisition will specify the need for the acquisition to support private redevelopment. The Plan does not authorize the Agency to use the power of eminent domain to acquire property other than in the case described in Section 602.A. above which allows the acquisition of land for public improvements using the power of eminent domain.

C. Land Disposition

The Agency will dispose of property acquired for a public improvement project by conveyance to the appropriate public agency responsible for construction and/or maintenance of the public improvement. The Agency may retain such property during construction of the public improvement. The schedule for disposition of land for a public improvement project will be determined based on the timing of the construction of the public improvement.

The Agency may dispose of property acquired under Subsection B. of this Section 602 by conveying any interest in the property. The schedule for disposition of land acquired under Subsection B. of this Section 602 will be determined by the Agency when the Agency determines the acquisition is necessary pursuant to Section 602. B above. These determinations may be made by Resolution of the Agency.

Property shall be conveyed at its fair reuse value. Fair reuse value is the value, whether expressed in terms of rental or capital price, at which the urban renewal agency in its discretion determines such land should be made available in order that it may be developed, redeveloped,

cleared, conserved or rehabilitated for the purposes specified in such plan. Because fair reuse value reflects limitations on use of the property to those purposes specified in the Plan, the value may be lower than the property's fair market value.

Where land is sold or leased, the purchaser or lessee must agree to use the land for the purposes designated in the Plan and to begin and complete the building of its improvements within a period of time that the Agency determines is reasonable.

Payments made to persons displaced from dwellings will be assured that they will have available to them habitable, safe, and sanitary dwellings at costs or rents within their financial reach. Payment for moving expense will be made to occupants displaced.

Prior to the Agency acquiring any property which will cause households, businesses, industries, offices or other occupants to be displaced, the Agency will prepare, adopt, and maintain a Relocation Policy. RESOLUTION NO. 10-068

**A RESOLUTION APPROVING MINOR AMENDMENT NUMBER
ELEVEN (11) TO THE COLUMBIA GATEWAY DOWNTOWN PLAN,
ADDING THE DALLES SKATEBOARD PROJECT TO PROJECT #10,
THE WEST GATEWAY PROJECT**

WHEREAS, Section 1201(E) of the Columbia Gateway Urban Renewal Agency Plan provides for minor changes to be adopted to the plan which involve changes to the scope, cost or location of projects or addition of projects that do not modify the goals and objectives or the basic procedural, planning or engineering principles of the plan; and

WHEREAS, the Columbia Gateway/Downtown Plan, Section 601, project number 10, is the West Gateway Project, which includes West 2nd Street from Lincoln Street to western boundary of Urban Renewal, street and property redevelopment, redesign, and reconstruction; and

WHEREAS, the Plan does not describe which specific properties can be subject to redevelopment as part of the West Gateway project; and

WHEREAS, on April 12, 2010, the Agency considered a request by the NWC Park and Recreation District to make the Skateboard Park a part of the West Gateway project.

**NOW, THEREFORE, THE COLUMBIA GATEWAY URBAN RENEWAL
AGENCY RESOLVES AS FOLLOWS:**

Section I. Minor Amendment Authorized. Pursuant to Section 1201(E) of the Agency's Urban Renewal Plan, the Agency authorizes a minor amendment to the Plan to be prepared in accordance with Section 1201 of the Plan. The change shall consist of adding The Dalles Skateboard Project as part of Project #10, the West Gateway Project. The change to the Plan shall be assigned an appropriate exhibit number and be placed in the appendix of the Urban Renewal Plan. The Agency finds and concludes that the proposed addition of the Skateboard Park Project qualifies as a minor change under section 1201 of the Plan, as the project is consistent with the goals and objectives of the Plan, and does not modify the basic procedural, planning or engineering principles of the Plan, for the following reasons:

- A. The Skateboard Park project is consistent with the following goals and objectives set forth in Section 401 of the Plan:

1. It will assist a property owner in the rehabilitation of their building and property to the extent it will help implement the intent of redevelopment goals, policies, and standards, especially where rehabilitation may spur additional redevelopment activity.
2. It will leverage the Agency's financial resources to the maximum extent possible with other public and private investments and other public and private funding sources.

B. The addition of the proposed Skateboard park to the Gateway Project satisfies the four following general criteria set forth in Section 601 of the Urban Renewal Plan:

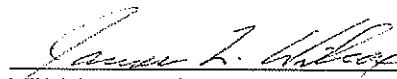

1. The proposed project addresses blighted conditions as described in the Urban Renewal Plan in that as a result of inadequate or improper facilities for skate boarders, the skate boarders are skating in locations which are not properly designed for such activities, which creates the potential for property damage or personal injury which is detrimental to the safety, health, and welfare of the community, and the proposed project will create a facility which will address these concerns.
2. The proposed project is consistent with Policy 1 of Goal #8 of the City's Comprehensive Plan concerning recreational needs, which policy provides that the City should work with residents, community groups, and the Northern Wasco County Parks and Recreation District Board to identify recreation needs. The letter of March 25, 2010 submitted by the Parks District in support of their funding request clearly establishes that community groups and the District have identified the need for a Skateboard park for the community, and the benefits associated with creation of such a Skateboard park.
3. Concerning the criteria regarding consistency with the development policies of the Historic Landmarks Commission, this criterion does not apply to the proposed project as the Commission does not have review authority over the proposed Skateboard park.
4. The proposed Skateboard park is anticipated to generate economic and tourist activity within the community, which will benefit the economic welfare of the community and stimulate economic growth, which will assist in increasing property values in the community, contributing to an increase in tax collections which should produce a reasonable return on any investment made by the urban renewal agency.

Section 2. This Resolution shall be effective as of April 12, 2010.

REPORT ON 10TH AMENDMENT TO THE COLUMBIA GATEWAY/DOWNTOWN URBAN RENEWAL PLAN

I. INTRODUCTION

The Columbia Gateway/Downtown Urban Renewal Report (the "Report") contains background information and project details for the 10th Amendment to the Columbia Gateway/Downtown Urban Renewal Plan (the "Plan"). The Report is not a legal part of the Plan but is intended to provide public information and a basis for the findings made by the City Council as part of its approval of the Plan. State law requires that, for an amendment that increases a plan's maximum indebtedness, the report accompanying the plan address conditions in the entirety of the plan area. Therefore, this Report includes information relating to the Plan area, as it may be amended by the 10th Amendment.

The Report provides the information required in ORS 457.085(3). The format of the Report is based on this statute.

The Area is shown in Figure 1. The new properties to be added to the Area are outlined in Figure 2. These parcels relate to the greenway project (west end of Area) and a redevelopment project (east end of Area).

II. **EXISTING PHYSICAL, SOCIAL AND ECONOMIC CONDITIONS AND
IMPACT ON MUNICIPAL SERVICES**

This section of the Report describes existing conditions within the Columbia Gateway/Downtown Urban Renewal Area (the "Area"), documenting the occurrence of "blighted areas" as defined by ORS 457.010(1).

A. **Physical Conditions**

1 **Land Use**

The Area, shown in Figure 1 above, contains approximately 176.9 acres of parcels and 142.8 acres of right of way, for a total of 319.7 acres.

The Columbia River borders the northern side of the Area. The eastern boundary is the eastern edge of the central business core of downtown The Dalles. The western boundary is elongated and contains industrial properties to the west of the downtown. Transportation within the Area is conducted mainly along 2nd and 3rd Streets.

An analysis of property classification data from Wasco County 2008-09 Assessment and Taxation database was used to determine the land use designation of parcels in the Area. The largest portion (38.96 percent) of the Area is classified as Commercial Improved, as shown in Table 1, "Existing Land Use (FY 2008-09)." Total commercial uses account for 23.62 percent of the Area. Government/Non Profit uses account for 24.49 percent of the Area. Right of way comprises 44 percent of the Area.

B. Infrastructure

1 Transportation

Running east and west through the downtown of The Dalles are 2nd and 3rd Streets, which compose a major transportation corridor. The streets are characterized by a lack of streetscape improvements in the Area. The east entrance to the downtown is inefficient and in need of upgrading. Designs for this have been approved by the City Engineer and construction is expected in the near future. The east entrance is inadequate and poorly designed and the streetscape improvements are inadequate to meet the demands of projected development in the Area and constitute blight in accordance with ORS 457.050(1)(e).

The classifications of streets in the Area as designated in the Transportation Systems Plan, prepared in June of 1999, and updated in June and December of 2006, are as follows:

Arterials

- a. 2nd Street from Webber Street East Area Boundary
- b. 3rd Street from Lincoln Street to 2nd Street
- c. Webber Street from south Area Boundary to 2nd Street
- d. Cherry Heights Road from Area Boundary to 2nd Street
- e. Lincoln Street from 2nd Street to 3rd Street

Minor Arterials

- a. 6th Street from Jordan Street west
- b. Union Street from 3rd Street to West 1st Street
- c. West 1st Street from Union Street to west edge of Area
- d. Webber Street from West 1st Street to West 2nd Street
- e. Washington Street from 2nd Street to 4th Street
- f. Brewery Grade at the east edge of the Area where it intersects Hwy 30

Major Collectors

- a. Webber Street from 2nd Street to west Area boundary
- b. 3rd Place within the Area boundary
- c. 3rd Street from 3rd Place to Lincoln
- d. 4th Street
- e. Union Street from 3rd Street to 5th Street

REPORT ON 10TH AMENDMENT TO THE COLUMBIA GATEWAY/DOWNTOWN
URBAN RENEWAL PLAN

- f. 2nd Street from Webber Street to west end of Area
- g. 4th Street from Jefferson to East 9th Street
- h. Federal Street from 2nd Street to 4th Street
- i. Madison Street from 1st Street to 3rd Street
- j. Court Street from 1st Street to 2nd Street
- k. Washington Street from 1st Street to 2nd Street

The remaining streets in the Area are classified as Local Streets.

There are no existing bike lanes in the Area. There is a proposed bike path along the Columbia River. There is a proposed bike path shown along the Mill Creek Greenway, which will eventually connect within the Area and connect to the waterfront path. There are many "shared roadways" within the Area. These are roads where bicycle travel is anticipated, but where separate bike lanes will not be designated. The Dalles Bicycle Master Plan, completed in June of 1993, can be found on the City of The Dalles website. Since it does not propose improvements for these shared roadways, they are not explicitly detailed within this document.

Streets

According to city staff, the following streets in the Area are in good/excellent condition:

Court Street- from 4th to 5th Avenue
East 5th Street from Union Street to Washington Street
Union Street to West 1st Avenue from railroad to railroad

The reminder of the streets would be classified as poor-failing condition.

Most of the paved streets within the downtown portion of the Area are built to city standards in that they have curbs, gutters and sidewalks. However, streetscape improvements occur only on 2nd Street. This same level of streetscape improvements is necessary for 1st Street, 3rd Street and 4th Street.

The streets are therefore inadequate, and constitute a blighting condition under ORS 457.010(1)(c).

2. Water, Sewer and Storm Drainage Facilities

Water:

In March of 2009, the City of The Dalles Public Works Department conducted an inventory and assessment of the Water Mains within the proposed boundary for the Urban Renewal Agency (Columbia Gateway/Downtown). The mains were found to be in fair to good condition **except** for the following:

- a. Main on 1st Street from Union Street to Monroe Street
- b. Main on Union Street from 1st Street to 7th Street
- c. Main on 3rd Street from Union Street to Brewery Grade
- d. Main on Madison Street from 1st Street to 3rd Street
- e. Main on Jefferson Street from 1st Street to 4th Street minus section replaced with 2nd Street Project
- f. Main on Federal Street from 1st Street to 5th Street minus section replaced with 2nd Street Project
- g. Main in the alley between 4th Street and 5th Street from Laughlin Street to Court Street
- h. Main on 4th Street from Jefferson Street to 3rd Place
- i. Main in the alley between 7th Street and 8th Street from Union Street to Liberty Street
- j. Main in 6th Street from Third Place to Trevitt Street

There is a CIP project planned for Second Street at Webber Street for upsizing to an 18-inch main in the Area.

In addition to the above information, the Fire District has requested water line upgrades in the Area to increase the capacity of the lines. This is included as a project activity under streetscape improvements. The water system is, therefore, inadequate, and constitutes a blighting condition under ORS 457.010(1)(e).

Sanitary Sewer:

In April of 2009, The City of The Dalles Public Works Department conducted an inventory and assessment of the sanitary sewer mains within the Area. The mains were found to be in fair to good condition **except** for the following:

- a) Main on Union Street from 7th Street to 4th Street
- b) All mains from 4th Street to 2nd Street between Union Street and Taylor Street
- c) Main on Taylor Street from 2nd Street to 1st Street
- d) Main on 1st Street from Jefferson Street to Monroe Street
- e) Main on 2nd Street from Taylor Street to Brewery Grade

REPORT ON 10TH AMENDMENT TO THE COLUMBIA GATEWAY/DOWNTOWN
URBAN RENEWAL PLAN

- f) Main on Laughlin Street from 5th Street to 3rd Street
- g) Main on Lincoln Street from 4th Street to 2nd Street
- h) Main on 6th Street and 3rd Place north to Mill Creek
- i) Main on 6th Street all along Mill Creek to 3rd Place
- j) Main on Bridge Street from 7th Street to 6th Street
- k) Main on Mt Hood Street from 8th Street to 7th Street
- l) Main on Jordan Street from 8th Street to 7th Street
- m) Main on 2000 Block of West 2nd Street along railroad tracks to Webber Street

There is a CIP project planned for the following:

- a) Main from 8th Street and Jordan Street to 3rd Place and Lincoln Street
- b) Main on Union Street from 5th Street to 10th Street

The sanitary sewer system is, therefore, inadequate, and constitutes a blighting condition under ORS 457.010(1)(e).

Storm

In April of 2009, The City of The Dalles Public Works Department conducted an inventory and assessment of the storm drain mains within the Area. The mains were found to be in fair to good condition **except** for the following:

- a) Storm main from 2nd Street to 3rd Street and Union Street to Taylor Street are very deep and would present a challenge to repair or replace in the future.

There is a CIP project planned for the following:

- a) 6th Street drainage ditch ease of Walnut Street.

The storm drain mains are adequate for the Area.

3. Parks and Open Space

There are four parks within the Area:

- a) The Mill Creek Greenway
- b) The City Park located at 707 Union Street
- c) Thompson Park at 602 W 2nd Street
- d) A small portion of Kramer Field Park.

4. Public Spaces

The public spaces are identified in the section below: Public Buildings.

C. Social Conditions

There are 132 parcels in the Area classified by the Wasco County Assessor as having residential use.

The following information comes from the United States (US) Census and relate to the City of the Dalles as a whole and can be assumed to relate to the residential parcels in the Plan Area. As of the United States Census of 2000, there were 12,156 people, 4,896 households and 3,226 families residing in the City of The Dalles. The population density was 892.3 people per square mile (km²) and there were 5,227 housing units at an average density of 383.7 per square mile (km²).

The racial makeup of the city as of the 2000 census is shown in Table 5.

The Census calculates Hispanic or Latino of any race as a separate category. Hispanic or Latino of any race was 10.5 percent of the population.

There were 4,896 households, 30 percent which had children under the age of 18 living with them, 51.1 percent which were married couples living together, 10.6 percent which had a female householder with no husband present and 34.1 percent which were non-families. Individuals comprised 29.2 percent of all households and 13.5 percent had someone living alone who was 65 years of age or older. The average household size was 2.40 and the average family size was 2.94.

The population by age category in the 2000 census is shown in Table 6.

The Portland State University Population Research Study of March 2008 estimates the population of The Dalles has increased to 13,170 as of July 1, 2007, an 8 percent increase in population over 7 years.

In May of 2006, ECONorthwest completed a population forecast for The Dalles.

Table 8 presents the population forecast for the City of The Dalles for the period 2006-2056. The forecast reaches a population of 22,545 by 2026 and 31,926 by 2056. The assumed growth rate for the 2006-2056 period is 1.9 percent annually until 2026, 1.3 percent between 2027 and 2046, and 0.9 percent between 2047 and 2056. This rate is based on The Dalles' growth between 1980 and 2005.

D. Economic Conditions

1. Taxable Value of Property within the Area

The estimated total assessed value of the Area, including all real, personal, personal manufactured and utility properties, is \$86,332,755. The total assessed value of the City of The Dalles is \$752,003,143.

2. Building to Land Value Ratio

An analysis of property values can be used to evaluate the economic condition of real estate investments in a given area. The relationship of a property's improvement value (the value of buildings and other improvements to the property) to its land value is generally an accurate indicator of the condition of real estate investments. This relationship is referred to as the "Improvement to Land Ratio" or "I:L." The values used are real market values. In urban renewal areas, the I:L may be used to measure the intensity of development or the extent to which an area has achieved its short- and long-term development objectives. A healthy condition of real estate investment in the The Dalles area would be 7:1. There are only 4.09 percent of the parcels in the Area that meet this improvement ratio.

Table 9 below "I:L Ratio of Parcels in the Area," shows the improvement to land ratios for taxable properties within the Area. As the table shows, approximately 80 percent of the study area's acreage has less than 2.0 improvement value; the I:L ratios for improved properties in the urban renewal study area are very low. This growing lack of proper utilization of land results in a stagnant and unproductive condition of land potentially useful and valuable for contributing to the public health, safety and welfare, constitutes blight in accordance with ORS 457.010(1)(h).

There are 71 parcels which do not have an improvement value listed, so these do not have an I:L ratio. There are 12 parcels that have no I:L ratio as the assessor has no value listed for the land because properties are non taxable. These parcels account for 7.1 acres.

E. Impact on Municipal Services

The fiscal impact of tax increment financing on taxing districts that levy taxes within the Area ("affected taxing districts") is described in section IX of this Report. This subsection discusses the fiscal impacts resulting from potential increases in demand for municipal services.

Projected increases in mixed use, retail, commercial and residential occupancies within the Area will generally result in higher demand for fire, life safety and public safety services. The projected increase in occupancies within the Area will also raise the demand for water, sewer and storm drainage services.

These impacts will be offset by funding for projects from the Plan, including:

- Improved transportation systems including roads, sidewalks and greenway trails will benefit the citizens of The Dalles. The street improvements will allow residents to travel through the area more safely. The sidewalk and greenway improvements will benefit pedestrians and bicyclists by allowing for both more safety and an extended system of connections throughout the city. In addition, these improvements will contain GPS systems, as requested by the Fire District.
- Building conditions will be improved as a result of the Property Rehab Loan program and the Downtown 2nd Story Rehab programs. If buildings receiving assistance also upgrade to have sprinkler systems, as requested by the Fire District, this installation will aid the Fire District on providing for the public safety in the Area.
- The proposed Marine Terminal dock will bring both jobs and economic vitality to The Dalles.
- The downtown parking structure will assist in the ability of patrons to frequent area businesses, thereby increasing economic vitality.
- In addition, developed sites will have employment opportunities for the citizens of The Dalles.
- The improvements to the Downtown Festival Area will assist in bringing economic stimulus to the The Dalles by providing a place for festival activities to occur.

These improvements help offset the fiscal impacts from the urban renewal area.

URBAN RENEWAL PLAN

III. REASONS FOR SELECTION OF EACH URBAN RENEWAL AREA IN THE PLAN

There is one urban renewal area in the Plan and it was selected to improve and prevent the future occurrence of blighted areas as defined in ORS 457.010(1).

IV. THE RELATIONSHIP BETWEEN URBAN RENEWAL PROJECTS AND THE EXISTING CONDITIONS IN THE URBAN RENEWAL AREA

This section describes the relationship between the NEW urban renewal projects called for in the Plan and the conditions generally described in Section I of this Report, and which are more specifically described below. The Project Map is shown in Figure 4. The projects are identified by the number used for identification in the Plan. The new projects are:

9. Mill Creek Greenway Development

This project has been changed from Mill Creek Greenway Acquisition to Mill Creek Greenway Development as acquisition for the project was completed through a donation from a private party. Although the property has been acquired, development of the greenway trail is still required.

Relationship to Existing Conditions

There is an existing, paved, Mill Creek Greenway Trail extending from the limited access bridge south of the 6th Street bridge 600 feet west along the creek and which will be extended from its present terminus at the limited access bridge near the Condominiums. It will be extended under the 6th Street bridge and then to connect to 2nd Street. An additional pedestrian bridge over Mill Creek will be needed to join with the Oil Can Henry property. The Mill Creek Greenway Trail is inadequate as it does not presently meet the full needs of the citizens of The Dalles. The Mill Creek Greenway Trail is a blighting condition in accordance with ORS 457.010 (1)(e).

15. Brewery Grade Reconstruction

This provides for the reconstruction of the transportation system in the area called Brewery Grade. It provides for a traffic circle and realignment of the streets within the Area.

Relationship to Existing Conditions

The Brewery Grade area is presently a system of streets which is not functioning adequately for the present transportation demands and will not be sufficient for the future development of the Area. The transportation network in this area is blighted in accordance with ORS 457.010(1)(e).

REPORT ON 10TH AMENDMENT TO THE COLUMBIA GATEWAY/DOWNTOWN
URBAN RENEWAL PLAN

16. 3rd Place Street Improvements

The 3rd Place street improvements include street, utilities, curbs, sidewalks, lighting, landscaping, and associated improvements.

Relationship to Existing Conditions

3rd Place is not to city standards and is in need of upgrading. The street is blighted in accordance with ORS 457.010(1)(e).

The following are not new projects, but are requests by the Fire District and will be allowed under existing project descriptions:

1. Installation of Opticom GPS System

This provides for the installation of an Opticom GPS system for traffic and pedestrian safety for the use of the Fire District and Police Department. This will be added as a component of the street and streetscape programs already in the Plan.

Relationship to Existing Condition

There is no Opticom GPS system in the Area. Installation of this system will aid in the public safety of the Area.

2. Installation of Sprinklers in Downtown Buildings

This provides for the installation of fire sprinklers, as required, in buildings undergoing rehabilitation under the existing Property Rehabilitation Program.

Relationship to Existing Conditions

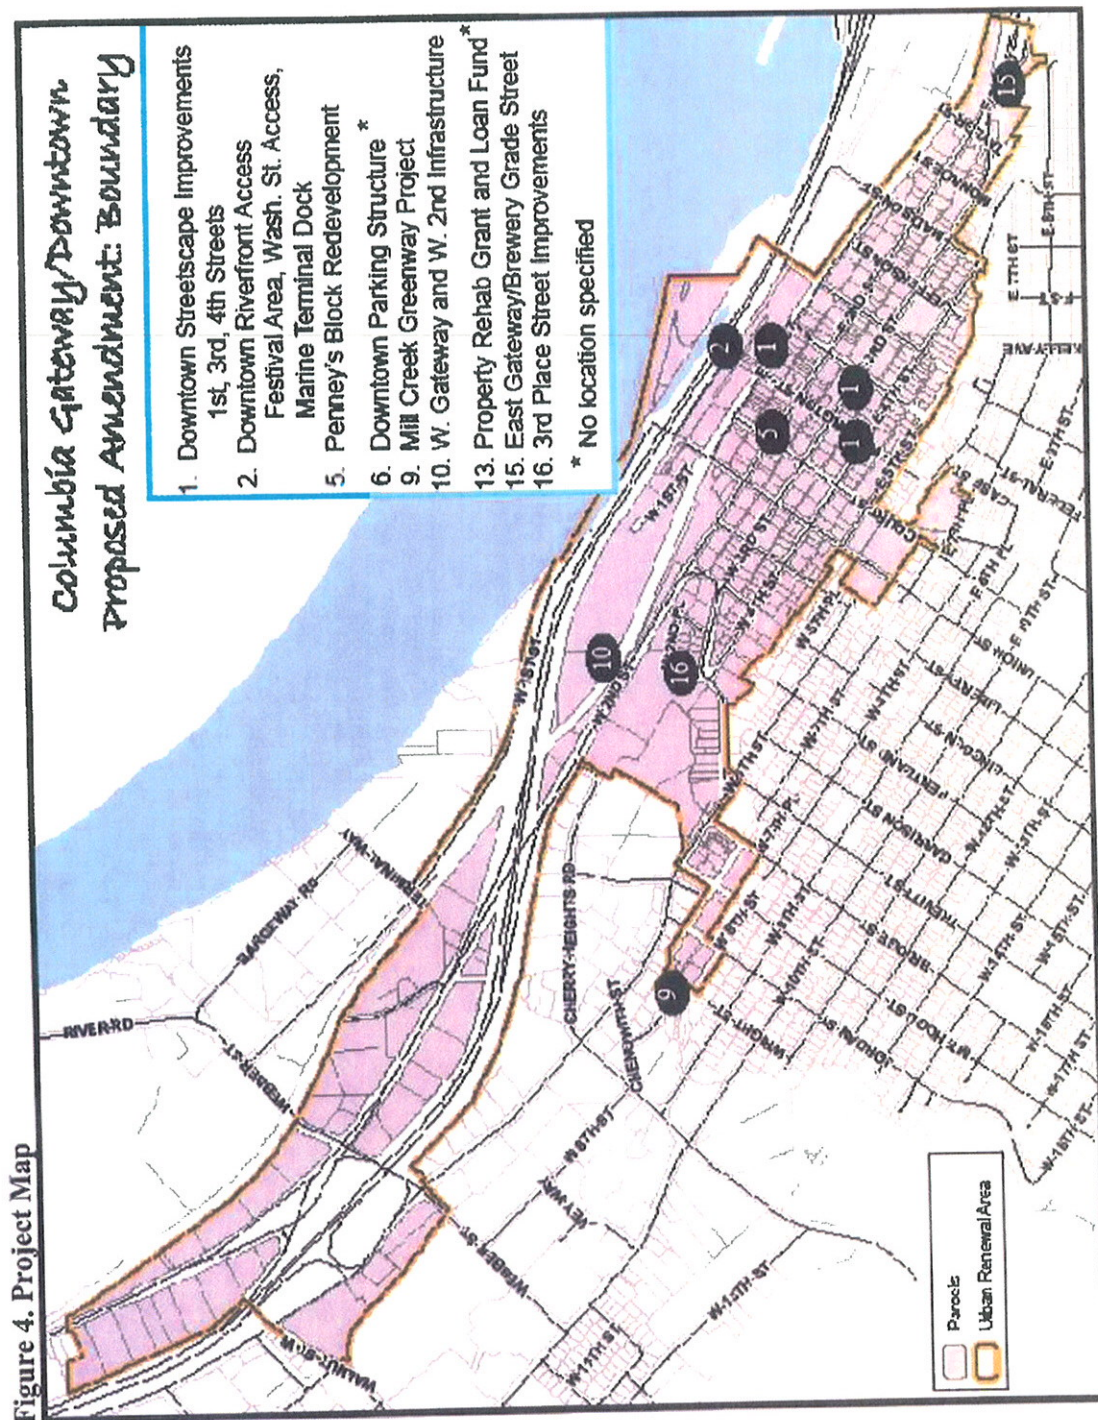

Many buildings in the Area do not have sprinkler systems. They are unsafe to occupy because of defective quality of physical construction in accordance with ORS 457.010 (1)(a)(A).

3. Water Systems Upgrades

This provides for the upgrading of water lines throughout the Area. This will be done through the streetscape program already in the Plan.

Relationship to Existing Conditions

There are no utility improvements as projects in the Plan. This would add the ability to upgrade water mains as streets were improved. This upgrade is a result of a request by the Fire District.

VI. THE ANTICIPATED COMPLETION DATE FOR EACH PROJECT

Projects will be ongoing and accomplished over the life of the Plan. Estimated completion dates are shown in Table 8 above.

VII. THE ESTIMATED AMOUNT OF TAX INCREMENT REVENUES REQUIRED AND THE ANTICIPATED YEAR IN WHICH INDEBTEDNESS WILL BE RETIRED

Table 9 shows the tax increment revenues and their allocation to loan repayments, reimbursements, debt service and debt service reserve funds. It is anticipated that all debt will be retired by the end of FY 2026. The maximum indebtedness is Twenty Nine Million, One Hundred Twenty Five Thousand Five Hundred Eighty Three dollars (\$29,125,583). The total amount of tax increment revenues required to service the debt is \$35,188,897.

VIII. FINANCIAL ANALYSIS OF THE PLAN

The estimated tax increment revenues through FY 2026, as shown above, are based on projections of the assessed value of development within the Area and payment of fees. The projections assume continued growth of values in the Area and the development of the Flour Mill project.

Table 10 shows the projected incremental assessed value, projected tax rates that would produce tax increment revenues and the annual tax increment revenues (not adjusted for undercollection, penalties and interest). These, in turn, provide the basis for the projections in Table 9.

**IX. IMPACT OF THE TAX INCREMENT FINANCING, BOTH UNTIL AND AFTER
THE INDEBTEDNESS IS REPAYED, UPON ALL ENTITIES LEVYING TAXES
UPON PROPERTY IN THE URBAN RENEWAL AREA**

The impact of tax increment financing on overlapping taxing districts consists primarily of the property tax revenues foregone on permanent rate levies as applied to the growth in assessed value in the Area.

The tables below show no impacts on the The Dalles Public Schools School or the Educational Service District. Under current school funding law, property tax revenues are combined with State School Fund revenues to achieve per-student funding targets. Under this system, property taxes foregone because of the use of Tax Increment Financing are replaced with State School Fund revenues. These projections are for revenues foregone through FY 2026.

Table 11. Projected Impact on Taxing District Permanent Rate Levies During Use of Tax Increment Financing

Taxing District	Total Revenues Foregone	Average Annual Revenues Foregone

The average impact of foregone revenues as a percentage of the total permanent rate levy of each taxing district, is shown in Table 12 below.

Table 13 shows the increase in permanent rate levy revenues that would occur after termination of the tax increment financing in FY2026. By FY 2033, revenues added to the permanent rate levies would substantially equal the revenues foregone during the use of tax increment financing.

X. RELOCATION REPORT

REPORT ON 10TH AMENDMENT TO THE COLUMBIA GATEWAY/DOWNTOWN
URBAN RENEWAL PLAN

**XI. COMPLIANCE WITH STATUTORY LIMITS ON ASSESSED VALUE AND
SIZE OF URBAN RENEWAL AREA**

There is only one URA in The Dalles. State law limits the percentage of both a municipality's total assessed value and the total land area that can be contained in an urban renewal area at the time of its establishment to 25 percent for municipalities under 50,000 in population. As noted below, the frozen base plus the estimated total assessed value of the properties being added to the Area, including all real, personal, personal manufactured and utility properties is \$25,630,490, which is 3.41 percent of the City of The Dalles' total assessed value, and well within the 25 percent statutory limitation. The estimated total acreage of the Area is 319.8 acres, including public right of way. Therefore, 7.31 percent of the acreage in the City would be in urban renewal areas, and 3.41 percent of the assessed value of the City would be in urban renewal areas. This is below the statutory limitation of 25 percent in both cases.
