RE: The Dalles City Center Hotel

Mr. Leash,

Thank you for taking the time to update me with regards to the potential hotel development of The Dalles City Center Hotel. I have reviewed the material pertaining to the potential project and believe the sites in question have possibility for a hotel development along with significant meeting room space.

With our vast portfolio of brand and strong presence in the Pacific Northwest there are several branding options we could look at for this particular location. Please keep in mind that if you should decide to proceed with one of our brands you will need to go through the formal application process. I look forward to speaking with you in the near future to discuss specific Hilton Brands and to attempt to move this opportunity forward.

Sincerely

Patrick Speer
