Please complete the entire form

Applicant Name: _____

Address: _____

Phone: _____

I, _____, hereby apply for a permit to construct or repair a sidewalk/approach on the (N-S-E-W) side of _____ Street, between _____ Street and _____ Street, at _____

Township _____ N, Range _____ E, Section _____, Tax Lot # _____ The Dalles, Oregon.

- I am the property owner doing my own work.
- I am the property owner hiring a construction contractor. License No. _____ Expires _____
- I am licensed with the Building Codes Division. License No. _____ Expires _____
- I am registered with the Construction Contractor's Board. License No. _____ Expires _____

I am constructing a: curb sidewalk drive approach

Name: _____ (Owner/Contractor) Oregon License No. _____

Address: _____

Signature: _____ Date: _____ Phone: _____

Applicant Signature: _____

Owner Signature (if different than applicant) _____

Applicant must provide a sketch of the property with cross streets and location of proposed sidewalk/approach area with dimensions of improvements and setbacks from property lines.

- Use grade line established by existing curb and/or sidewalk
- Alter existing grade: submit plans for review and/or approval
- If no existing curb or sidewalk, submit plans to establish grade

For areas having no pre-established grade, or existing curb and sidewalk, permittee shall have plans prepared by a licensed Professional Engineer (P.E.) and submit them to Public Works for review and approval before installation of said curb and/or sidewalk. Grades shall be established by permittee using a qualified surveyor.

For City Use Only

Zone District/Overlay _____	Street Classification _____	Posted Speed _____
Right-of-Way Planner _____	Date: _____	
Development Inspector Approval _____	Date: _____	

- **Standard curb must be formed the entire face depth which requires saw cutting, removing and replacing the asphalt.**
- **Bottom of curb cut (end of wings/throat) must be a minimum of 5' from property line.**
- **Minimum of 2" of ¾-minus compacted aggregate (watered)**
- **No monolithic pours are allowed unless prior approval from Development Inspector or City Engineer.**
- **All curbing and sidewalks installed in the Right-of-Way shall be free of cracks. If cracking occurs concrete will be replaced at contractor/property owner's expense.**
- **Contact Development Inspector 48 hours in advance of the need for a form inspection
(Jim Schwinof (541) 296-5481 Ext. 1131 or Mobile (541) 288-6386)**

I will construct or repair a sidewalk/approach according to the standard specifications and drawings for sidewalk/approach construction as set forth by the City Engineer of the City of The Dalles, of which I acknowledge receipt. (Specifications will be provided with the approved permit)
