PRESS RELEASE

DATE: August 3, 2017

TOPIC: Pavement Preservation Project – East 10th Street

CONTACT: City of The Dalles Public Works Department (541) 296-5401

FOR RELEASE: IMMEDIATELY

Wednesday August 16, the City of The Dalles Public Works will begin a pavement preservation project on East 10th Street between Thompson Street and Dry Hollow Road.

Full road closure will be in effect during the mornings of August 16th and 17th.

Chip sealing work is scheduled on August 16th from 7:00 a.m. to approximately noon.

When E 10th Street is reopened for traffic, speeds will be reduced to 15 or 20 mph to keep vehicles from dislodging the cover rock and reduce the instances of loose flying rock as the chip seal cures.

Early morning street sweeping will begin on August 17th from 7:00 a.m. in order to remove loose rock before a thin coat of asphalt is applied to extend the useful life of the repaired road surface. All work is expected to be completed by noon.

During road closure hours, motorists are encouraged to use E 12th Street as an alternative route to avoid the work area.

Please proceed with caution in this area during construction times and observe all temporary traffic control devices. Thank you for your patience during this work.

If you have questions, please contact the Public Works Department at (541) 296-5401.
