PRESS RELEASE

June 15, 2021

For immediate release

Joint Press Release Northern Wasco County Parks and Recreation District and City of The Dalles

Re: Regional Chlorine Shortages

Supply disruptions have led to region-wide chlorine shortages across the Pacific Northwest. This has resulted in suppliers rationing distribution to municipal water systems and canceling deliveries to non-essential customers, including public swimming pools. The Northern Wasco Aquatic Center will close to the public Wednesday, June 16th until further notice. The City of The Dalles public water supply will operate as normal with no service disruptions.

Additional information will be posted on the Park District website here: www.nwprd.org or at The City of The Dalles website: <http://www.ci.the-dalles.or.us/> as it becomes available.
